

Fencing

We can supply a penning kit – panels of 11'6" x 6' high, these are steeled framed with a mesh insert.

They are very easily installed & can be erected in minutes & are quickly removable. Nets for over the top can be supplied.

Feed

Our feed is a natural product of a 'muesli' type which can be fed wet or dry.

We also have a chicken treat which the birds love, this contains natural products including bird seed.

Bedding

We stock eucalyptus sprayed bedding which is sterilized & dust free for the healthy breathing of birds.

The bedding is available in either chopped wheat straw with wood chip or chopped rape straw.

Products for the control of parasites such as red mite, lice & fleas are available also powder disinfectant together with a good stock of feeders & drinkers.

Westaway Poultry Housing has been designed with the welfare of the poultry in mind & also for the ease of husbandry & to be aesthetically pleasing. All houses are tried & tested on our own farm.

They are made of best quality timber, bolted & screwed not nailed, with an onduline roof for ventilation purposes.

The majority of our houses are built on four legs to eradicate vermin. Two further features are a door within a door, which enables the birds to be kept inside (if necessary) and a removable nest box facility for ease of cleaning.

All houses are made to order & handcrafted in the UK.

Little Wing & Run

Its 2'9" wide x 4'4" long including nest box and is 16" off the ground. This house is suitable for 4 – 6 hybrids & is ideal for the small poultry keeper.

Option :- The run & kit which is 6'6" long by 2'9" wide can be supplied.

This butts up to the house & gives a complete small house & run facility for both urban & rural poultry keeping.
